

amedes offers interdisciplinary medical services for patients, physicians and hospitals at more than 60 locations throughout Germany and Belgium. Each year more than 3,500 employees – including 350 medical experts – care for more than 450,000 patients attending our clinics. We are one of the leading providers of genetic counselling and molecular and cytogenetic laboratory services and still growing.

Our teams in **Hamburg, Hannover, Göttingen, Essen, Frankfurt, and Mainz** need your support for genetic counselling and validation of lab reports.

We are looking for certified **specialist physicians** (medical doctors) in
human genetics (m/f) / Facharzt für Humangenetik (m/w)
 who enjoy an independent though challenging job

We are offering an unlimited contract, attractive remuneration and highly skilled and assisting colleagues. We also readily support further postgraduate training.

We welcome any special interest you might have or want to develop. Since we aim to promote interdisciplinary care, our medical team comprises obstetricians and gynecologists, endocrinologists, rheumatologists, oncologists, paediatricians and pathologists. Doctors who are still in their specialist training and consider working in Germany are also welcome to discuss their plans for the future with us. We are approved for specialist training at several locations and foreign expertise is commonly acknowledged in Germany.

As a major company we will be able to help you with anything to do with relocation, certification of documents and language classes. We want you to feel welcome.

If you have any further questions please do not hesitate to contact us. For an informal exchange concerning your and our expectations, feel free to contact Dr. Nicolai Kohlschmidt (nicolai.kohlschmidt@amedes-group.com), head of clinical genetics, or Dr. Ute Hugo (ute.hugo@amedes-group.com), head of clinical medicine.

To apply, please use our e-mail address recruiting@amedes-group.com. To learn more about amedes visit www.amedes-group.com.
