

2017 Cancer Genetics Course

Wednesday 10th - Friday 12th May 2017 (finishing 12 noon)

This course is aimed at trainee health professionals in Clinical Genetics and related specialities or for those wanting to refresh and update their knowledge of cancer genetics. As in previous years we will run an intensive course of lectures from our international expert panel of speakers and frequent small group facilitated interactive sessions.

This year the course will be hosted by the Wessex Clinical Genetics Service, (University Hospital Southampton Foundation Trust and Faculty of Medicine, University of Southampton) UK, and will be held at:

Chilworth Manor Hotel & Conference Centre

(Within easy reach of Southampton airport and Southampton train stations)

www.bw-chilworthmanor.co.uk

£550 per person includes full board and lodging
(Day delegate rate may become available at a later stage)

Please note: places are limited, early booking advised

To reserve a place please contact:
