

TRAINING SCHOOL

“Predisposition to hereditary Leukemia and Lymphoma”

VENUE: University Residential Centre of Bertinoro, Italy www.ceub.it

SCHEDULE: 25th – 29th of March 2019

TRAINEES: Researchers at different career stages are eligible to apply to the training school, including Pediatric/Adult (Onco)Hematologists, Clinical Geneticists and Clinical Laboratory Geneticists. Priority will be given to early career individuals (clinical specializations + max. 8 years), and a balanced participation of trainees from inclusiveness target countries will be pursued (see http://www.cost.eu/about_cost/strategy/excellence-inclusiveness). On a case-by-case basis applications from ‘outside’ the Cost Action may be considered.

The school offers interactive **plenary lectures, concurrent workshops in small groups and case discussion sessions**. Students are expected to **prepare short presentations** of cases for the discussion sessions.
