

In response to huge interest from the Leukemia and Lymphoma community LEGEND COST ACTION (CA16223) is happy and proud to announce the second “*Predisposition to hereditary Leukemia and Lymphoma*” Training School to be held in Bertinoro (IT).

Due to objective circumstances regarding the COVID-19 pandemic, the Training School has now been planned for **October 11-15th 2021**.

We are thankful that we can use the same venue, which provided great service and support during the first Training School.

Excellent marks from the trainees of the previous Training School encouraged us to organize a second edition. All suggestions and advices, adopted from detailed evaluation will be considered to make the second Training School an even bigger success. Several trainees of the first Training School are now valuable members of LEGEND.

We are looking forward to meet new participants to disseminate important knowledge of genetic predisposition in the field of pediatric hematology and oncology.

Until then, we look back at beautiful memories of the first Training School and forward to meeting you at the second edition.
